

This is a letter to inform the FCC about my displeasure with the Clear Channels Radio Program "Bob and Madison" Show concerning their broadcast bringing hatred and injury to Cyclists. This is in clear violation of what I see is the use of our PUBLIC airwaves. If we have to be ruled by Government Policies, then let's use them to our advantage. The FCC will most likely sweep this under the carpet and forget all about it! I need to let you know my displeasure however! Please, don't let these people bring hate to cyclists by use of the PUBLIC Radio System. I would not wish ill will on anyone, but these people should not be allowed to continue this type of programming!!!!!!!
